

**Project - Pagina de Psihologie
Analysis from a QA Tester & User
Perspective**

Objective : Search by Author Name

[Search]

[Executed Steps] Home Page -> Burger Menu -> Slider Search Field: "Anita Moorjani"

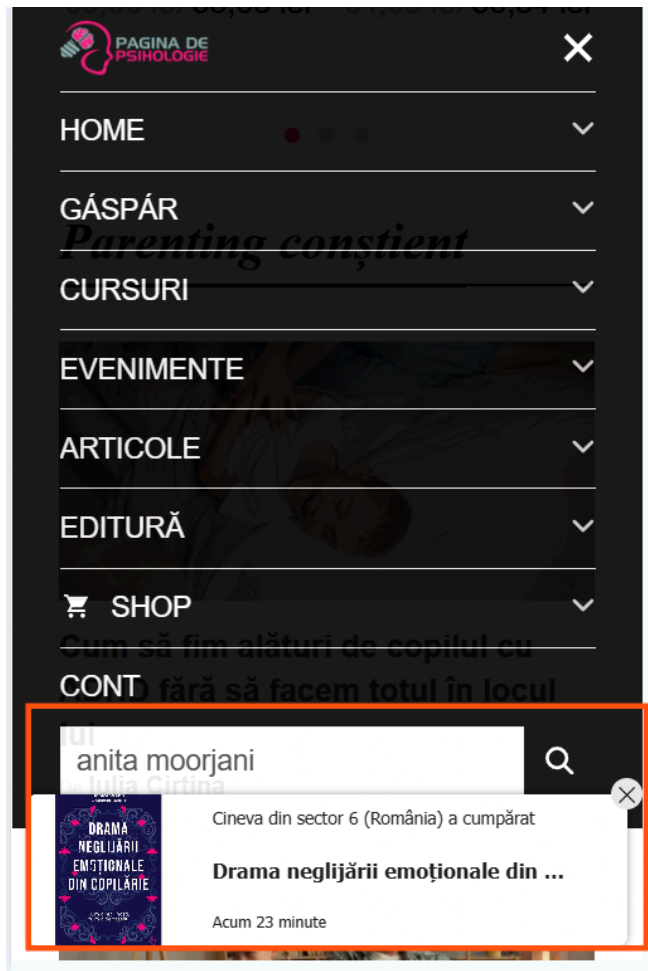

[Defect] The Slider Menu has a transparency that causes the words from the under page to be visible on the Slider Search Field. This may cause confusion for the user when writing his search words.

[PopUp]

[Executed Steps] Home Page -> Burger Menu -> Slider Search Field: "Anita Moorjani"

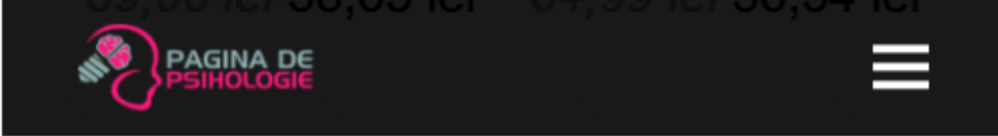

[Defect] - The Pop Up with books suggestion partially covers the Slider Search Field.

[ExecutedSteps] Home Page -> Burger Menu -> Slider Search Field: "Anita Moorjani"
[Defect] - If the User clicks on "X" button to close the Pop Up it triggers the closing of the Slider Menu.

The User has to reinitiate multiple actions: click on Burger Menu -> Type "Anita Moorjani" -> press "Enter".

In order not to close the Slider Menu his only option is to wait 15 seconds for the Pop Up to disappear. This creates frustration for the User.

[Executed Steps] Home Page -> Burger Menu -> Slider Search Field : "Anita Moorjani" -> Actual Result "Nu am gasit niciun rezultat pentru aceasta cautare"

[Defect] - The Search function doesn't return the correct result - the searched Author/Book Page.

[Executed Steps] - Header -> Main Search Field : "Anita Moorjani" -> Actual Result : 1 existing book from the searched author.

The Website has 1 Book from the author Anita Moorjani.

The screenshot shows a mobile application interface for 'PAGINA DE PSIHOLOGIE'. The header is dark with a logo on the left and a hamburger menu on the right. Below the header is a blurred image of a room with two filing cabinets. The main content area is white and contains a login form titled 'Autentificare'. The form has two input fields: 'Nume utilizator sau adresă email *' with the value 'JhonDoe@gmail.com' and 'Parolă *' which is masked with dots and has an eye icon to toggle visibility. Below these fields is a section for 'Autentificare cu social media' with four circular icons for Facebook, LinkedIn, Google, and Instagram. At the bottom left is a settings gear icon and a checkbox labeled 'Ține-mă minte'. At the bottom right is a shopping cart icon.

[Scenario] As a user I want to purchase 3 books.

I know 2 of the authors : Harville Hendrix and Dr Shefali. For the 3rd Book I don't know what I will choose. I intend to navigate the website to see if I can find something interesting.

[Steps to Reproduce] Home Page -> Main Search Field -> Type : " Harville Hendrix" -> opens Author's Books List -> verified if the suggested book belong to the searched author -> Test Pass

[Steps to Reproduce] Home Page -> Main Search Field -> Type : “ Harville Hendrix” -> opens Author’s Books List -> click on “VEZI TOATE PRODUSELE ...12” -> [Defect] Multiple products have under the Title multiple overlaid “S” letters.

[User Perspective] - It gives me a feeling of mistrusting the website because my brain associates this error with fraudulent websites which frequently have odd writing.

Also I’ve associated the overlapping “S” with a wrong price which made me wonder “Would my price be correctly calculated? Is a pricing error on this website and I better search the books on other websites?”

[Steps to Reproduce] Home Page -> Main Search Field -> Type : " Harville Hendrix" -> opens Author's Books List -> click on "VEZI TOATE PRODUSELE ...12" -> click on 1 Product ("Primește iubirea pe care o dorești") -> Product Page -> [Defect] Product Page has under the Title multiple overlaid "S" letters.

Știința relațiilor

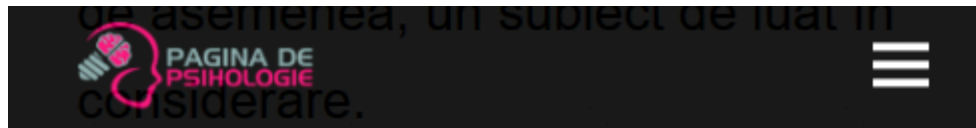

Autori: Harville Hendrix, Helen LaKelly

Mei sunt disponibile: 276 buc

Objective : As a user I want to easily find a therapist.

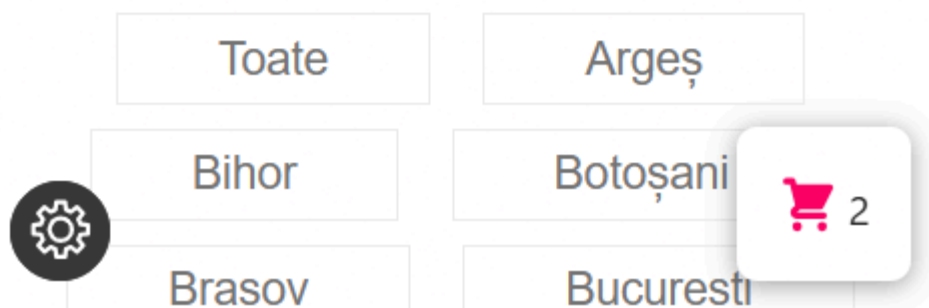

[Steps to Reproduce] - Burger Menu -> Slider Menu -> Home Dropdown -> Găsește un terapeut -> on the Section “Selectează județul de mai jos” click on button “Mures”

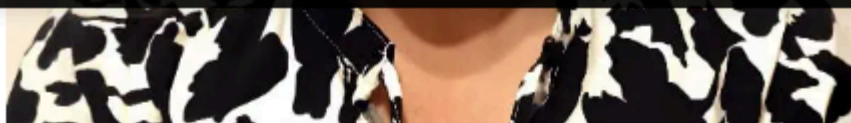

[User Perspective] - Pursuing the suggestion to choose one district, as a user I expect all the therapists from “Mures” to be shown. The first layout that my eyes see is a pattern : picture + name + contact, which my brain follows. The brain follows this pattern and at a first glance all the therapists seem to be located in “Mures” district. Inserting international therapists into these search results is confusing for the user.

Pentru că Pagina de Psihologie își propune să promoveze sănătatea relațională în România sub toate formele sale, sistemul nostru on-line este unul dintre cele mai sigure locuri pentru a găsi un psihoterapeut eficient.

[Steps to Reproduce] Home Page -> click on Main Search Field -> The layout is a blank page.

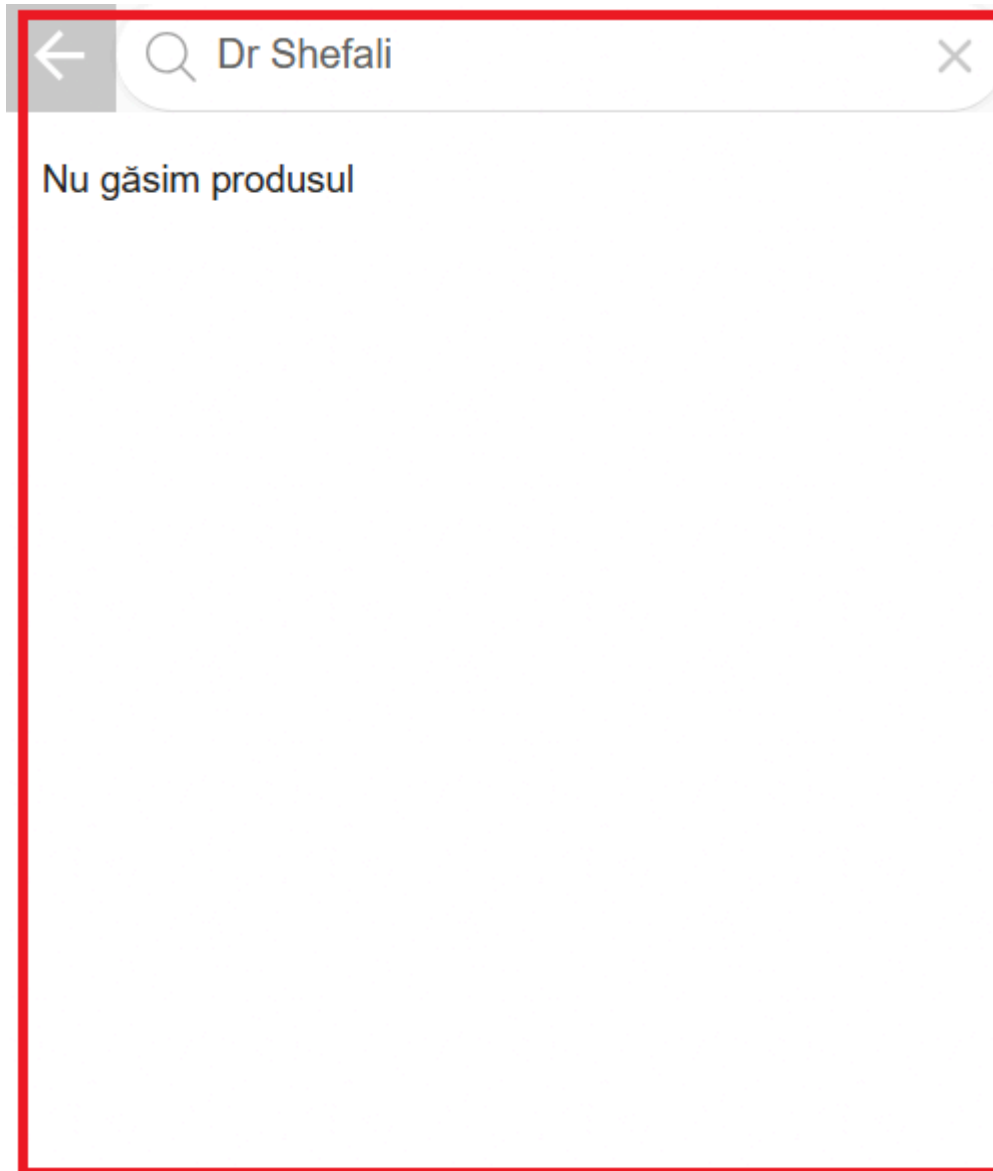

[User Perspective] - The blank page creates confusion. For me as a user it is not clear what I could do next. I have a delay in the thinking process "Is this an error? Should I continue to fill in the search information?"

As a user I want to easily find my desired authors. Remembering the exact name of the author is difficult for me. Also there are a lot of international authors with difficult spelling names. Even in these conditions I want to quickly find my authors. How can your search function help me?

[Steps to Reproduce] Home Page -> Main Search Field -> "Shefali" -> The search correctly shows the results.

The screenshot shows a mobile application interface with a search bar at the top containing the text 'sheffali'. Below the search bar, a list of seven books is displayed. Each book entry includes a small thumbnail image of the book cover, the title, and the price. The prices are shown in two lines: a crossed-out original price and a current price. A red box highlights the search bar, and a red vertical line points from it to the first book entry.
